

The ADS Network

Where

No matter where you practice, it's likely you already know an ADS Broker. Each and every office has a keen knowledge of the business side of dental practices and methodically determines accurate values for both sellers and buyers.

Partners

Our experience and long-standing relationships help secure financing that oftentimes exceeds 100% of a practice's value. From attorneys to accountants, insurance to practice management, our network has the experience to facilitate a smooth transition.

Fairness

Sellers want to be sure they're getting the fairest price; buyers want to be sure the practice will be profitable. ADS provides exceptionally accurate valuations.

Tools & Services

Managing your production, scheduling, training, accounts receivable – there's a lot more to a practice than the actual dentistry. ADS has tools and services that help make your practice run smoothly and more profitably.

What's In It For You

PRACTICE VALUATIONS

Retirement

What is your life's work worth? When a doctor nears the sunset of his or her career, likely their most important and valuable asset is their practice. An accurate valuation of your practice is an indispensable tool that will provide insight into areas of your practice that can be improved with oftentimes very little investment.

Buying a Practice

Where do you want to live and what kind of community do you want to serve should be the first question you have to answer, but how much practice can you afford is just as important. An accurate practice valuation is an important component to securing the financing you'll need to buy and grow your newfound practice.

Managing the Unexpected

No one plans on a career-ending disability or untimely death, but an accurate valuation of your practice will assure your heirs receive the benefits of your life's work in its entirety should the unthinkable happen. Your practice's true valuation and a relationship with your ADS broker are as important as your life insurance policy in providing financial security to your loved ones.

Peace Of Mind

Practice Brokerage

Whether buying or selling a practice, ADS offers a clear advantage with a nationwide network of brokers and strategic partners who understand the nuances of practicing in large metropolitan densities, smaller cities and rural towns throughout America. ADS markets your practice nationally to reach potential buyers seeking a lifestyle or geographic change.

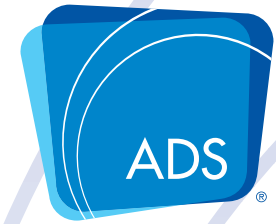

Integrity and strictest confidentiality are ADS cornerstones. We know the value of quietly and unobtrusively initiating, pursuing and finalizing the transition of a practice from one doctor to another.

We are often able to secure financing of more than 100% of a practice's value due to our record in valuation accuracy. This is a boon to both seller; who doesn't want to owner-finance the practice; and buyer, who may want extra cash on hand after closing.

"If a deal isn't good for both parties, we don't pursue it. In the end, a successful transaction has to be fair to both. That's when we know we've done our job well."

Sarah Lynch, President, ADS
